SKILLS

- HTML, CSS, JavaScript: Craft interactive and responsive web interfaces with clean, well-structured front-end code.
- Problem-Solving: Approach challenges with logic and creativity to deliver efficient, real-world solutions.
- Creative Thinking: Innovate and think outside the box to enhance user experience and interface design.
- Responsive Design: Design mobile-first, fluid layouts that adapt seamlessly across all devices and screen sizes.
- Firebase Authentication: Implement secure, real-time user login systems using Firebase's authentication services.
- Communication Skills: Collaborate effectively with teams and express technical ideas clearly in both writing and speech.

PROJECTS

Social Media Platform

Created a secure Sign Up and Sign In system using Firebase Authentication. Users can log in to access a personalized dashboard and post content. Ensures real-time data handling and user-based access control. Including chat system between friends.

EXPERIENCE

- **Frontend Developer**
Gained hands-on experience in crafting responsive and visually appealing web interfaces using modern HTML, CSS, and JavaScript. Emphasized user-centric design and performance optimization.
- **Problem Solver**
Skilled in identifying strategic and creative solutions to technical and academic challenges. Experienced in tackling coding challenges, including solving examples on Hacker Rank.
- **Continuous Learner**
Dedicated to improving technical skills and understanding, with a focus on applying theoretical knowledge to practical challenges.
- **Web Development Proficiency**
Fluent in HTML, CSS, and JavaScript, with strong skills in solving JavaScript problems.
- **Communication skills**
I communicate ideas clearly and effectively, both in writing and verbally. I listen attentively, give thoughtful responses, and adapt my communication style based on the audience or situation. These skills support collaboration, teamwork, and confident public speaking.
