QUALIFICATIONS

Problem Solver: Proficient in developing creative solutions, such as identifying strategic ways to resolve challenges within fictional and academic frameworks.

Continuous Learner: Dedicated to improving technical skills and understanding, with a focus on applying theoretical knowledge to practical challenges.

Web Development Proficiency: Fluent in HTML, CSS, and JavaScript, with strong skills in solving JavaScript problems.

Problem Solver: Experienced in tackling coding challenges, including solving examples on HackerRank.

Technical Knowledge: Currently enrolled in a Web and App Development course, with a solid foundation in front- end technologies (HTML, CSS, and JavaScript).

Critical Thinker: Demonstrates analytical and creative problem-solving abilities, including constructing well-reasoned theories and solutions.

Continuous Learner: Actively enhancing technical expertise and applying knowledge to practical challenges and real-world scenarios.

SUMMARY

A dedicated and detail-oriented web development enthusiast with strong skills in HTML, CSS, and JavaScript. Proficient in solving JavaScript problems and experienced in tackling coding challenges on platforms like HackerRank. Currently pursuing a Web and App Development course, building a solid foundation in front-end technologies. Passionate about applying problem-solving and analytical skills to real-world scenarios. Demonstrates a commitment to continuous learning and technical growth. Excels in creative thinking and contributing innovative solutions to challenges.
